save money

The Fuel Buyers Group is partnering with CSEA to get you big savings on your heating bills! We bring a collaborative, non-profit perspective to the home energy marketplace – helping consumers save money while simultaneously helping to improve the environment.

We use collective buying power to lower your energy costs. With thousands of participants and 40 years experience, we negotiate deep discounts with trusted local suppliers. Last year, our members saw an average savings of more than \$400! We also offer service contract discounts and price caps to protect you from this volatile energy market - no matter how high prices go! And, as a member of CSEA your membership in the program is free!

Start saving today!
Call us at (800) 695-4645
or visit us online at nypirg.org/fbg/csea

Take advantage of these program benefits:

- Free membership for CSEA members (regularly \$40 annually)
- Big discounts on home heating oil, kerosene, and other heating products and services
- Collective price negotiation and consumer advocacy
- 24 hour emergency service
- Price cap protection in some areas
- Budget payment plans or 30 day payment cash or credit
- Members in some parts of New York State will receive a statement credit for referrals or even just for joining!

About NYPIRG and the Fuel Buyers Group:

The New York Public Interest Research Group Fund (NYPIRG) is a non-partisan, nonprofit, research and public education organization. Founded in 1976, we have educated hundreds of thousands of New Yorkers and recruited tens of thousands of community-based members from all parts of the state, helping to bring the voices of average New Yorkers to public policy debates. NYPIRG's full-time staff examines important issues, produces studies, and engages New Yorkers in public education campaigns designed to produce policies that strengthen democracy, enhance the rights of consumers and voters, and protect the environment and public health.

NYPIRG's Fuel Buyers Group brings a collaborative, non-profit perspective to the home energy marketplace – helping consumers to save money while simultaneously helping to improve the environment. The Fuel Buyers Group negotiates with trusted, local home heating providers using the collective purchasing power of our members to get a lower price. At the same time, membership and participation in the Fuel Buyers Group contributes to NYPIRG's environmental advocacy work.

The program is open to CSEA members year-round and we presently cover 50 of New York's 62 counties including the Capital District, Central New York, the Hudson Valley, Long Island, New York City, the North Country, the Southern Tier, and Western New York
